-  Faculty of Agriculture - University of Belgrade

MAJOR PROJECTS

Project Title:	„Production and Use of milk Replacers for Feeding Young Domestic Animals ”
Project Category:	Technological Development
Project Number:	BTR. 5.07.0501B
Period of Engagement:	2003-2007
Project Manager:	Milan Adamovic PhD, Principal Research Fellow
Institution wherein project manager is employed:	Institute for Technology of Nuclear and other Mineral Raw Materials.
Financier:	The Ministry of Science and Environmental Protection
Status in Project:	Entrant

Project Title:	„Education of farmers on Making Haylage"
Project Category:	Special
Period of Engagement:	2004
Project Manager:	Janja Kuzevski PhD, Research Associate
Institution wherein project manager is employed:	Institute PKB Agroekonomik
Financier:	Ministry of Agriculture, Forestry and Water Management
Status in Project:	Entrant

Project Title:	„Improving the Production of Combined and Dairy Breeds of Cattle from the aspect of Selection, Nutrition, Care and Breeding"
Project Category:	Special
Period of Engagement:	2004
Project Manager:	Mihailo Radivojevic, researcher
Institution wherein project manager is employed:	Institute PKB Agroekonomik
Financier:	Ministry of Agriculture, Forestry and Water Management
Status in Project:	Manager

Project Title:	„Optimization and standardization of indigenous dairy products with protection of designation of origin"
Project Category:	National
Project Number:	BTN. 5.5.351010B
Period of Engagement:	2006-2007
Project Manager:	Mihailo Ostojic PhD, Full Professor
Institution wherein project manager is employed:	Faculty of Agriculture, University of Belgrade
Financier:	Ministry of Science and Technological Development
Status in Project:	Entrant

Project Title:	standardization of the technological process of traditional production of Golija Mountain cheese using indigenous lactic acid bacteria in order to protect geographical indications of origin"
Project Category:	Technological Development
Project Number:	TR20111
Period of Engagement:	2008-2010
Project Manager:	Mihailo Ostojic PhD, Full Professor
Institution wherein project manager is employed:	Faculty of Agriculture, University of Belgrade
Financier:	Ministry of Science and Technological Development
Status in Project:	Entrant

Project Title:	„Development and usage of products based on mineral raw materials in the production of safe food"
Project Category:	Technological Development
Project Number:	BTR 20016
Period of Engagement:	2008-2010
Project Manager:	Milan Adamovic PhD, Principal Research Fellow
Institution wherein project manager is employed:	Institute for Technology of Nuclear and other Mineral Raw Materials
Financier:	Ministry of Science and Technological Development
Status in Project:	Entrant

Project Title:	„Development of technologies and products based on mineral raw materials and waste biomass in order to protect resources for safe food production"
Project Category:	Technological Development
Project Number:	BTR 31003
Period of Engagement:	2011
Project Manager:	Mirjana Stojanovic PhD, Principal Research Fellow
Institution wherein project manager is employed:	Institute for Technology of Nuclear and other Mineral Raw Materials
Financier:	Ministry of Science and Technological Development
Status in Project:	Entrant

Project Title:	„Improving the research of modern biotechnological procedures in the production of animal feed in order to increase the competitiveness, quality and safety of food"
Project Category:	Integrated and Interdisciplinary Research
Project Number:	46012-MI
Period of Engagement:	2011-2015
Project Manager:	Jovanka Levic PhD, Principal Research Fellow
Institution wherein project manager is employed:	Institute of Food sector and technologies in Novi Sad
Financier:	Ministry of Science and Technological Development
Status in Project:	External Associate

CHARACTERISTICS

Experience both in the executive and managing positions. High efficiency, both individually as in team. Responsibility and dedication to work. Experience in working under pressure and in multitasking. Analytical, detailed and dynamic approach in problem solving. Considering anticipation of potential risks and constant search for the most optimal solution. Methodological approach, both in self-organizing and organizing the associates, given the circumstances. Dedicated to the principle that the terminal product, or service, leads to user satisfaction, as an essential prerequisite of successful business.

PERSONAL ADVANTAGES

Quick learner. Sharing a passion for new knowledge and skills. Very communicative and tolerable person. Methodological and empirical adaptability in information receiving and sharing, given the circumstances as well as the nature of information and its terminal user. Constantly focused on working and technologically discipline improvement. Adjustable in various working environments. Always open-minded for the consideration of new and well-designed business models and experiences. In order to make proper conditions for team working, consistent in personal efficiency improvement and personal efforts to eliminate potential mistakes of associates.

DISADVANTAGES

Unable for hard physical labour due to physiological handicap. For the same reason in high risk in driving a car.
